

ZIM SWITCH

Payments Conference 2026

PROSPECTUS

THEME: 'Scaling With Purpose, Delivering Impact'

VENUE: Elephant Hills Hotel, Victoria Falls

DATES: 22 - 25 July 2026

Be Present Where it Matters Where Innovation Meets Action!

From the banks of the mighty Zambezi, the Zimswitch Conference 2026 will rise as more than a gathering, it will be a catalyst for Zimbabwe's digital payments transformation.

The stakes are higher than ever in 2026. As the world accelerates towards digital payments transformation, Zimbabwe cannot afford to remain on the sidelines. The question is no longer whether we have the technology, or whether our systems are capable. Our digital payments infrastructure, interoperability, and regulatory frameworks have matured significantly. The challenge before us is adoption.

This year's Zimswitch Payments Conference is not just another industry event. It is a critical convening of minds, leaders, financial players, regulators and policy makers to confront a simple but urgent reality:

Zimbabwe must move decisively towards a cash lite economy. Reliance on USD cash remains a reality, but the opportunity lies in accelerating everyday use of digital payments, expanding merchant acceptance, strengthening trust, and ensuring inclusion of SMEs, the informal sector, and underserved communities.

The theme: **"Scaling with Purpose, Delivering Impact"** underscores driving purpose-led market innovation that translates strategies into tangible outcomes while unlocking bold ideas and the next frontier of payments.

Together, we will commit to practical and actionable steps that advance Zimbabwe's journey towards a cash lite economy during a two day conference, running from 22–25 July 2026, at the Elephant Hills Hotel in Victoria Falls.

Commitment To Action

Accelerating Everyday Use

Making digital payments the default choice for consumers & businesses in daily transactions.

Strengthening Trust

Building confidence in digital systems through enhanced security, transparency, and reliability.

Driving Human Centered Innovation

Designing solutions around real market needs and behaviour.

Recap From Last Conference

Set against a rapidly evolving digital landscape, the 2024 Zimswitch Payments Conference convened industry players under the theme **"Thriving and Shaping the Future in an Era of Continuous Change."**

It served as a powerful platform for dialogue, sparking conversations on balancing innovation with regulation, unlocking the potential of digital identity, and harnessing the power of AI in combating fraud, and delivering with a customer-first mindset among others timely topics.

A defining highlight was the celebration of 30 years of Zimswitch, a legacy of illuminating Zimbabwe's payments landscape while boldly shaping "What's Next" through collaboration, innovation, and inclusive growth.

Register Today

This is an invite-only event. The conference participation fee is USD750 also payable in ZWG. Register by 30 April 2026 to confirm your attendance.
